Getting to know Jay Brodach

Brodach Builders, Inc.

Jay Brodach

My mentor and biggest influence was...

My father, Abram Brodach. He was a holocaust survivor from Poland who began building new homes in 1963. The first 3 lots he purchased were on Lanuette St. in South Meriden. After selling these new homes, he purchased 3 more lots on New Hanover Street where he built 3 new ranch style homes. After several more successes in Meriden, my father purchased property on Redwood & Greenwood Lanes in Cheshire. In addition to building new homes for sale, he also built a residence for his family, which remained my mother's home until 1993.

Brodach Builders continued its success in Cheshire, and in 1977 while constructing the Deaconwood neighborhood off of Higgins Road, my father asked me to join him and my older brother Harvey in the family business. Although I was still in college, I agreed to assist him as time allowed. I began to learn about all aspects of new construction and the building business. A year later I joined Brodach Builders on a full-time basis and continued the Brodach tradition of maintaining high standards to which my late father had achieved.

My greatest strength as a builder is...

The ability to communicate effectively with clients, instilling a level of trust and confidence so that they feel comfortable with whom they're working.

My proudest building experience...

Following in my father's footsteps, I reside in one of the neighborhoods that I built and developed. Very few developers actually live in an area that they built. It's also been very rewarding on several occasions when I've had repeat business and an opportunity to build a home for a second time for the same client.

I want homebuyers to remember their buying experience...

Building a new home should be a rewarding and pleasurable experience if you are working with the right people. We strive to make this a reality.

Projects developed by Brodach Builders include...

Cheshire: Deaconwood, Woodpond, Philson Court, South Brooksvale Road, Mountaincrest, Briarcliffe, Bickerton Woods, Richmond Hills, Winding Trails, Cambridge Hills, Chamberlain Woods, Hickory Knoll, & Sterling Ridge.

Southington: Forest Glen & Rivercrest

Also Augur Farms in North Branford, Parkman Place in Old Saybrook and projects in Southbury, Simsbury & Woodbridge.
